OFFICE OF THE DIRECTOR OF PUBLIC HEALTH
IN MYSORE,
BANGALORE
Date 9th August 1943.

To

The Secretary to Government,
Law Department,
Bangalore

Sir

Re Urgent necessity for casting of pipes along the rising main of the Kathwal Tank Project and stacking them -

I have the honour to inform you that the Sanitary Engineer, in his Memo No 842 dated 21st December 1942 has reported about the possibility of breakage of the Kathwal pipes lying along the rising main and also of theft occurring He has submitted two alternative estimates in his No 1453 dated 3-5-1943 for Rs 9,000/- and Rs 6000/- respectively for sanction, in which arrangements are made for re-stacking the pipes and watching them The report accompanying the estimates gives the details of provisions

Subsequently, in his No 1615 dated 31st May 1943 (copy enclosed), the Sanitary Engineer has stated that on account of the pipes which are being received from Bhadravathi and which are lying near Chitaldrug town along the rising main alignment, the possibilities of breakage and theft are very great and he wants sanction urgently for spending Rs 900/- for casting the pipes from the neighbourhood of the town and Railway Station to the Subdivision stores of the Sanitary Assistant Engineer at Chitaldrug Under the circumstances, and since the matter is urgent, I request favour of sanction, for the time being, for an expenditure of Rs 900/- being incurred for casting the pipes to the Subdivision headquarters, the cost being debitable to the Kathwal project estimate This is essential since the machinery of the pumping station has not yet arrived and the work of the rising main cannot be taken up at present on account of the prohibitive cost of pig lead

I have the honour to be,
Sir,
Your most obedient servant
O Bachamaraya
Director of Public Health

Re Estimate for casting C I pipes from rising main and railway station to office stores, under Kathal Project Works, Chitaldrug

--

In continuation of this office No 1453 dated 3-5-1943 submitting two estimates for Rs 9,000/- and Rs 6,000/- respectively for casting the pipes of Kathal Project water supply, etc I have the honour to state that there are 217 C I pipes of 9" dia lying on the rising main between 4/5 and 1/5 mile of Kathal Project works which runs parallel to Bangalore-Chanwar Road Since they are exposed and laid by the side of the road, they are liable for breakage and theft It is now proposed to precast the same and stack in the office yard of the Assistant Engineer, No 4 Sanitary Subdivision, Chitaldrug The cost on this account would come to Rs 900/- This will have to be charged to one of the alternative estimates for Rs 9,000/- and Rs 6,000 respectively submitted for sanction with this office No cited above Kind approval to the same is requested very urgently
